

**DONATE
YOUR**

Birthday

aWish with Wings 

Donating your birthday to raise money for a Wish with Wings?

Here are five tips to make the most of your special fundraiser.

1

Provide options. Provide several dollar options so people can donate at any level. It's good to start at \$10.

2

Pick a number. Set a goal for the amount you want to raise. It should be ambitious but realistic. Include a deadline close to your birthday that allows you time to get the word out.

3

Get personal. Share your story in the fundraiser description – explain the work a Wish with Wings does and why it's important to you. Don't forget to mention it's for your birthday!

4

Be visual. Upload a photo or graphic to help catch the eyes of your friends. You can use the one we provided!

5

Spread the word. Promote your fundraiser to everyone you know. Send an email; post about it on your social media channels; and talk about it at work, school and church.

Do something truly unforgettable for your birthday!
